

CONSTANT LEVEL PLATE DISPENSER, HEATED
SDPC-40

Ref: 1186.462.029
Magnus

Capacity: 40/45 plates per column.
Adjustable plate size system, with 3 flexible rods that work as a plate stacking guides.
Capacity for plates with a diameter ranging from 180 to 280 mm.
Special system with steel springs that resist high temperatures, keeping the plates at a constant level for easy service.
Elasticity can be adjusted according to the weight of the plates, turning on/off the springs.
Thermostat to monitor, control and regulate the hot table temperature at desired setpoint.
The front panel can be coated with different colors.
Construction made of AISI 304 18/10 stainless steel.
Tray slide, 400 mm or 800 mm, supplied disassembled from the counter. To be ordered separately as an option.
Neither glass foodshields nor glass shelving can be assembled on top of the dispenser
Lids to keep the right plate temperature, as an optional accessory.
